REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The present invention distinguishes over the prior art of record for multiple reasons. No single feature distinguishes over the prior art of record but the combination of features presently claimed.

The prior art of record discloses the combination of a proxy server and a SSO server that are co-located in the same server to provide many of the same features, but the present invention differs in that external from each other and that the SSO server is accessible via the Internet. The implementation of the prior art are conventionally for systems that are protected on internal networks, which makes the accessibility via internet against the convention of the prior art of record.

Additionally the present invention also claims the cookies of the present invention were opaque to the proxy server and the SSO server. Therefore preventing the SSO server from issuing cookies to be used for login at external website, like that of the prior art of record.

The present invention also requires that the proxy server and SSO server are limited to HTTP operations. Passing conventional browser communications from the user to the proxy to SSO servers, this then authorizes the user with the content server and returns the results back thru the SSO server. But further communication is then communicate directly from the proxy server to content server and in reverse in the process now excluding further communication thru the SSO server.

The combination of these features distinguishes over the prior art as a whole. Therefore for the reason discussed above among other reason the presently claimed invention is allowed over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See attached Notice of references cited (if appropriate).
